Cilji:

Cilj predmeta je študente seznaniti z različnimi taksonomijami tvorbe vprašanj, nalog in dejavnosti poučevanja naravoslovja in tehnike ter jih naučiti ob upoštevanju zakonodaje pravilno spremljati in vrednotiti delo učencev pri naravoslovnih in tehničnih vsebinah razredne stopnje.

Predvideni študijski rezultati:**Objectives:**

The objective of the subject is to introduce students to various taxonomies of question forming, task forming and activity forming in teaching natural science and technics and to teach considering the legislation to correctly follow and assess work of pupils at natural science and technical contents of class level.

Intended learning outcomes:

<p><u>Znanje in razumevanje:</u> Po zaključku predmeta bo študent sposoben:</p> <ul style="list-style-type: none"> – izkazati znanje in razumevanje pomena komunikacije zobozdravnika z različnimi subjekti za njegovo uspešno delo; – izkazati znanje in razumevanje dejavnikov procesnega in učno ciljnega pristopa poučevanja relacije: »Učenje – znanje – komuniciranje – razumevanje« znotraj odnosa zobozdravnik, pacient, zobozdravnik – zobozdravnik, zobozdravnik – medicinska sestra, zobozdravnik – svojci, zobozdravnik – množični mediji; – identificirati in rešiti probleme povezane z uporabo različnih taksonomij za tvorbo vprašanj, nalog in dejavnosti v procesih komuniciranja zobozdravnika na primarni, sekundarni in terciarni ravni; – pokazati sposobnost načrtovanja procesov komunikacije, opisnih kriterijev in opisnikov v našem zdravstvenem sistemu. <p><u>Prenosljive/ključne spretnosti in drugi atributi:</u></p> <ul style="list-style-type: none"> – Spretnosti komuniciranja: ustni in pisno izražanje, vodenje razgovora, sposobnost poslušanja in razumevanja posredovane informacije; – uporaba informacijske tehnologije: uporaba programskih orodij za ustrezno komuniciranje; – reševanje problemov: sposobnost reševanja problemov, ki nastanejo v procesu komuniciranja: pri oblikovanju vprašanj, sprejemanju odgovorov, pojasnil in drugih informacij; v sporazumevanju, opravičevanju, napakah in zmotah, v sporočanju pozitivnih, negativnih in nevtralnih s poudarkom na njihovi pripravi, izvedbi in analizi. 	<p><u>Knowledge and Understanding:</u> After completing the subject students will have skills to:</p> <ul style="list-style-type: none"> – demonstrate dentist' knowledge and understanding of the meaning of communication with different subjects for their successful work; – demonstrate knowledge and understanding of the factors of the process and target learning approach of teaching in the relation 'learning – knowledge – communication – understanding' inside the relationships dentist – patient, dentist – dentist, dentist – nurse, dentist – kin, dentist – mass media: – identify and solve problems connected with the use of different taxonomies for question forming, task forming and activity forming in processes of dentist communication on primary, secondary and tertiary level; – show skills in planning communication processes, descriptive criteria and descriptive in our health system. <p><u>Transferable/Key Skills and other attributes:</u></p> <ul style="list-style-type: none"> – Communication skills: oral and writing expression, discussion leading, listening skills and comprehension of received information; – Using information technology: use of software tools for adequate communication; – Problem solving: being able to solve problems which occur in the process of communication: in forming questions, receiving answers, explanations and other information; in communication, apologizing, mistakes and errors, in informing of positive, negative and neutral with accent on their preparation, execution and analysis.
