- organization of work in selfmanagement groups of chronic patients, education and supervision – training of other members of team,
- burnout and prevention,
- professionalism and humanism in medicine.

Predvideni študijski rezultati:

Znanje in razumevanje:

1. Osnov sporočanja
2. Besednega in nebesednega sporazumevanja
3. Osnov sporazumevanja z bolnikom
4. Empatije, odnosa zdravnik-bolnik, zaupanja
5. Sporazumevanja z bolnikovimi svojci
6. Pravnih in etičnih vidikov sporazumevanja v medicini
7. Načel vodenje posveta v medicini
8. Načel vključevanja bolnikov v odločanje in sodelovanja bolnikov pri zdravljenju
9. Opredelitev slabe novice v medicini
10. Modelov sporočanja slabe novice
11. Sporočanja slabih izvidov, ugotovitev in napovedi bolezni
12. Sporočanja ob umirajočem bolniku

Intended learning outcomes:

Knowledge and understanding:

1. Basic features of communication
2. Verbal and non-verbal communication
3. Basics of communication with patients
4. Empathy, physician-patient relationship, trust
5. Communication with patients' relatives
6. Legal and ethical aspects of communication in medicine
7. Legal and ethical aspects of communication in medicine
8. Principles of consultation management in medicine
9. Principles of patients' inclusion in decision-making and partnership in management of patients
10. Models of breaking bad news
11. Communication of bad test results and diseases' prognosis
12. Communication in case of a dying patient
13. Dealing with violence in medicine

<p>13. Obravnave nasilja v medicini 14. Reševanja konfliktov 15. Reševanja pritožb 16. Organiziranega dela v skupinah samopomoči kroničnih bolnikov, edukacija in supervizija – usposabljanje sodelavcev (zdravstvena nega) 17. Problematike poklicnega izgorevanja in preventiva 18. Profesionalizma in humanizma v medicini</p> <p>Prenesljive/ključne spremnosti in drugi atributi:</p> <ol style="list-style-type: none"> 1. Veščine sporazumevanja 2. Veščine vodenja posveta v medicini 3. Veščine sporočanja slabe novice 4. Veščine reševanja konfliktov in pritožb 5. Veščine sporazumevanja in vodenja posveta s svojci 6. Veščine obravnave nasilja 	<p>14. Solving of conflicts 15. Solving of complaints 16. Organization of work in selfmanagement groups of chronic patients, education and supervision – training of other members of team 17. Burnout and prevention 18. Metode poučevanja in učenja:

Predavanja
 Seminarji
 Delo v malih skupinah
 Igra vlog
 Ogled video in filmskih vsebin
 Voden razprava
 Projektne naloge

Learning and teaching methods:

Lectures
 Seminar work
 Small group work
 Role play
 Video and education movies
 Moderated discussion
 Project assignments
