Cilji in kompetence:

Ob koncu pouka bodo študenti

- opisali besedno in nebesedno sporazumevanje,
 - razpravljali o pomenu nebesednega sporazumevanja z bolnikom,
 - prepoznali skrite bolnikove namige,
 - sporočali slabo novico, slabe izvide, slabe napovedi bolezni,
 - reševali spore in pritožbe,
 - opisali osnove sporočanja,
 - cenili pomen empatije,
 - opisali odnos med zdravnikom in bolnikom,
 - poznali pomen zaupanja v odnosu zdravnik-bolnik,
 - opisali pravne in etične vidike sporazumevanje v medicini,
 - razložili načela vodenje posveta v medicini,
 - razložili načela vključevanja bolnikov v odločanje in sodelovanja bolnikov pri zdravljenju,
 - opisali modele sporočanja slabe novice,
 - razložili sporočanje ob umirajočem bolniku,
 - opisali organizirano delo v skupinah samopomoči kroničnih bolnikov, edukacija in supervizija – usposabljanje sodelavcev (zdravstvena nega),
 - opisali problematiko poklicnega izgorevanja in preventivo,
 - razpravljali o profesionalizmu in humanizmu v medicini,
 - našteli dejavnike, ki vplivajo na odločitev bolnika za posvet,
 - opisali lastnosti zdravnika pred posvetom,
 - opisali okoliščine sporazumevanja med bolnikom in zdravnikom,
 - razložili pomen izida posveta za sodelovanje med zdravnikom in bolnikom,
 - opisali modele sporazumevanje med zdravnikom in bolnikom,
 - našteli najpogostejše pritožbe bolnikov v zvezi s posvetom,
- opisali modele sporazumevanja na hišnem obisku.

Objectives and competences:

At the end of this subject, the student will

- describe verbal and non-verbal communication,
- discuss the value of non-verbal communication with patients,
- recognise hidden patient's hints,
- communicate bad news, bad tests' results and bad diseases' prognosis,
- manage conflicts and complaints,
- explain the basics of communication with patients,
- value the importance of empathy, patient-physician relationship, and trust
- explain the meaning and importance of breaking bad news in medicine,
- describe legal and ethical aspects of communication in medicine,
- describe the principles of management of consultation in medicine,
- describe the principles of inclusion of patients in management,

- describe the organization of work in selfmanagement groups of chronic patients, education and supervision – training of other members of team,
- describe burnout and prevention,
- discuss about professionalism and humanism in medicine,
- list the factors that affect the decision of a patient to visit a physician,
- describe the features of physician before a consultation,
- describe the circumstances of communication between a patient and a physician,
- explain the meaning of consultation outcome for physician-patient cooperation,
- describe the models of communication between physician and patient,

--

– list the most common complaints of patients regarding a consultation, describe the models of communication in home visits.
--

Predvideni študijski rezultati:

Znanje in razumevanje:
<ol style="list-style-type: none"> 1. Osnov sporočanja 2. Besednega in nebesednega sporazumevanja 3. Osnov sporazumevanja z bolnikom 4. Empatije, odnosa zdravnik-bolnik, zaupanja 5. Sporazumevanja z bolnikovimi svojci 6. Pravnih in etičnih vidikov sporazumevanja v medicini 7. Načel vodenje posveta v medicini 8. Načel vključevanja bolnikov v odločanje in sodelovanja bolnikov pri zdravljenju 9. Opredelitve slabe novice v medicini 10. Modelov sporočanja slabe novice 11. Sporočanja slabih izvidov, ugotovitev in napovedi bolezni 12. Sporočanja ob umirajočem bolniku 13. Obravnave nasilja v medicini 14. Reševanja konfliktov 15. Reševanja pritožb 16. Organiziranega dela v skupinah samopomoči kroničnih bolnikov, edukacija in supervizija – usposabljanje sodelavcev (zdravstvena nega) 17. Problematike poklicnega izgorevanja in preventiva 18. Profesionalizma in humanizma v medicini
Prenesljive/ključne spretnosti in drugi atributi:
<ol style="list-style-type: none"> 1. Veščine sporazumevanja 2. Veščine vodenja posveta v medicini 3. Veščine sporočanja slabe novice 4. Veščine reševanja konfliktov in pritožb 5. Veščine sporazumevanja in vodenja posveta s svojci 6. Veščine obravnave nasilja

Intended learning outcomes:

Knowledge and understanding:
<ol style="list-style-type: none"> 1. Basic features of communication 2. Verbal and non-verbal communication 3. Basics of communication with patients 4. Empathy, physician-patient relationship, trust 5. Communication with patients' relatives 6. Legal and ethical aspects of communication in medicine 7. Legal and ethical aspects of communication in medicine 8. Principles of consultation management in medicine 9. Principles of patients' inclusion in decision-making and partnership in management of patients 10. Models of breaking bad news 11. Communication of bad test results and diseases' prognosis 12. Communication in case of a dying patient 13. Dealing with violence in medicine 14. Solving of conflicts 15. Solving of complaints 16. Organization of work in selfmanagement groups of chronic patients, education and supervision – training of other members of team 17. Burnout and prevention 18. Professionalism and humanism in medicine
Transferable/Key Skills and other attributes:
<ol style="list-style-type: none"> 1. Communication skills 2. Skills of consultation management in medicine 3. Skills of breaking bad news 4. Skills of conflicts and complaints solving 5. Skills of communication and consultation with patients' relatives 6. Skills of management of violence

Metode poučevanja in učenja:

Predavanja Seminarji Delo v malih skupinah Igra vlog Ogljed video in filmskih vsebin Vodena razprava Projektne naloge

Learning and teaching methods:

Lectures Seminar work Small group work Role play Video and education movies Moderated discussion Project assignments
--

Načini ocenjevanja:

Način (pisni izpit, ustno izpraševanje, naloge, projekt)
--

Delež (v %) /

Share (in %)

Assessment methods:

Type (examination, oral, coursework, project): Project work described in a paper and presented to the students' audience.
--

<p>Študent mora opraviti projektno nalogo in jo ustno zagovarjati.</p> <p>ŠTUDIJSKE OBVEZNOSTI ŠTUDENTOV:</p> <ol style="list-style-type: none"> 1. 80% prisotnost na predavanjih (tj. 4 ure) 2. 80% prisotnost na seminarjih (tj. 32 ur) 3. Izdelava in oddaja pisne seminarske naloge 4. Opravljena ustna predstavitev seminarske naloge <p>POGOJI ZA PRISTOP K POSAMEZNEMU PREVERJANJU ZNANJA:</p> <p>Pogoj za pristop k pisnemu izpitu so opravljene vse obveznosti in pozitivne ocene iz obveznosti pod točko 1 in 2.</p> <ol style="list-style-type: none"> 1. Izdelava in oddaja pisne seminarske naloge 2. Opravljena ustna predstavitev seminarske naloge 	<p>100</p>	<p>ACADEMIC OBLIGATIONS OF STUDENTS:</p> <ol style="list-style-type: none"> 1. 80% attendance lectures (4 hours) 2. 80% attendance seminars (32 hours) 3. Writing of project assignment 4. Oral presentation of project assignment <p>REQUIREMENTS FOR ACCESS TO INDIVIDUAL KNOWLEDGE CHECKING:</p> <p>Students are admitted to final written exam if they finished all assignments and got positive marks from assignments under Items and 2.</p> <ol style="list-style-type: none"> 1. Written project assignment 2. Oral presentation of project assignment
