

UČNI NAČRT PREDMETA / COURSE SYLLABUS						
Ime predmeta:	Tropska medicina					
Course title:	Tropical medicine					
Študijski program in stopnja Study programme and cycle		Študijska smer Study option		Letnik Year of study	Semester Semester	
Splošna medicina, enovit magistrski študijski program				Peti, šesti	10., 11.	
General medicine, Uniform master's degree study program				Fifth, sixth	10th, 11th	
Vrsta predmeta (obvezni ali izbirni) / Course type (compulsory or elective)		izbirni elective				
Univerzitetna koda predmeta / University course code:						
Predavanja Lectures	Seminar Seminar	Vaje Tutorial	Klinične vaje Clinical training	Druge oblike študija Other forms of study	Samost. delo Individual work	ECTS
5	40	AV LV RV			45	3
Nosilec predmeta / Course coordinator:	doc. dr. Nina Gorišek Miksić					
Jeziki /Languages:	slovenski/slovene					
	slovenski/slovene					
Pogoji za vključitev v delo oz. za opravljanje študijskih obveznosti:	Prerequisites for enrolling in the course or for performing study obligations:					
Vsebina (kratki pregled učnega načrta):						
<p>Študenti se bodo seznanili s pristopom k bolniku s sumom na infekcijsko bolezen po vrnitvi iz tropskih krajev oziroma s potovanj. Spoznali bodo značilnosti okužb, ki so vezane na posamezne organe oziroma organske sisteme (npr. prebavil, kože in mehkih tkiv) in nekaterih bolezenskih stanj. Seznanili se bodo z etiologijo, epidemiologijo, diagnostiko, diferencialno diagnostiko, zdravljenjem in preprečevanjem okužb na potovanjih.</p>						
SKLOPI PREDAVANJ IN SEMINARJEV:						
Parazitarne okužbe:						
<ul style="list-style-type: none"> - malarija - tripanosomoza - lešmaniaza - shistosomoza in okužbe z drugimi metljaji 						
Content (syllabus outline):						
<p>The students will get an insight to a rational approach to the returning travelers with possible infection. They will learn about different clinical patterns of most common travel-associated infectious diseases. The aim of this course is to get knowledge about etiology, epidemiology, clinical picture, pathogenesis, diagnostics, differential diagnostics, treatment and prevention of most common infectious diseases in tropics.</p>						
LECTURES AND SEMINARS						
Parasitic infections:						
<ul style="list-style-type: none"> - malaria - trypanosomiasis - leishmaniasis - schistosomiasis and infections with other flukes 						

<ul style="list-style-type: none"> - okužbe s črevesnimi nematodi (Enterobius vermicularis, Ascaris lumbricoides, Trichuris trichura, Ancylostoma duodenale, Necator americanus, Strongyloides stercoralis) - okužbe s tkivnimi nematodi (trihinoza, drakunkuloza, filarioza, onhocerkoza) - okužbe z amebami - giardioza - okužbe z Isospora belli, Sarcocystis spp., Balantidium coli, Cyclospora cayetanensis - ektoparazitoze (miasa) - okužbe s trakuljami - toksokarioza in očesna larva migrans - kožna larva migrans <p>Virusne okužbe:</p> <ul style="list-style-type: none"> - okužbe z virusi hepatitisovali - okužbe s HIV - hemoragične mrzlice: <ol style="list-style-type: none"> 1. rumena mrzlica 2. denga 3. okužbe s Hantavirusi 4. mrzlica Lassa 5. mrzlica Ebola 6. mrzlica Marburg 7. krimsko-kongoška hemoragična mrzlica 8. hemoragična mrzlica Omsk - okužbe z alfavirusi (Chikungunya, O nyong-nyong, Ross river) - japonski encefalitis - okužba z virusom West nile - okužba s Toscana virusom - steklina - poliomielitis - gripa - SARS - ptičja gripa <p>Rikecioze:</p> <ul style="list-style-type: none"> - mrzlica Skalnegorovja - Mediteranska mrzlica - rikecijske koze - epidemični tifus (pegavica) - mišji tifus - Japonska rečna mrzlica (scrub tifus) <p>Prionske bolezni:</p> <ul style="list-style-type: none"> - kuru <p>Bakterijske okužbe:</p> <ul style="list-style-type: none"> - kuga - tifus - paratifus - kolera - melioidoza - tuberkuloza - gobavost 	<ul style="list-style-type: none"> - infections with intestinal nematodes ((Enterobius vermicularis, Ascaris lumbricoides, Trichuris trichura, Ancylostoma duodenale, Necator americanus, Strongyloides stercoralis)) - infections with tissue nematodes (trichinosis, dracunculiasis, filariasis, onchocerciasis) - amebic infections - giardiasis - infections with Isospora belli, Sarcocystis spp., Balantidium coli, Cyclospora cayetanensis - ectoparasitic disease (myiasis) - infections with cestodes - toxocariasis and ocular larva migrans - cutaneous larva migrans <p>Viral infections:</p> <ul style="list-style-type: none"> - viral hepatitis - HIV infections - haemorrhagic fevers: <ol style="list-style-type: none"> 1. yellow fever 2. dengue fever 3. infections with Hantaviruses 4. Lassa fever 5. Ebola fever 6. infections with Marburg virus 7. Crimean-Congo haemorrhagic fever 8. Omsk haemorrhagic fever - infections with alphaviruses (Chikungunya, O nyong-nyong, Ross river) - Japanese encephalitis - infections with West nile virus - infections with Toscana virus - rabies - poliomyelitis - influenza - SARS - avian influenza <p>Rickettsial diseases:</p> <ul style="list-style-type: none"> - Rocky Mountain spotted fever - Mediterranean fever - Rickettsialpox - epidemic or louse-borne typhus - murine typhus - scrub typhus <p>Prionic diseases:</p> <ul style="list-style-type: none"> - kuru <p>Bacterial infections:</p> <ul style="list-style-type: none"> - plague - typhoid fever - paratyphoid fever - cholera - melioidosis - tuberculosis - leprosy
---	--

- bartoneloze
- okužbe s treponemami (yaws, pinta, bejel)
- leptospiroza
- gonoreja
- sifilis
- klamidijske okužbe (limfogranuloma venereum, trahom)
- čankroid
- vročica po ugrizu podgane
- Donovanoza (granuloma inguinale)
- povratna vročica

Glivne okužbe:

- histoplazmoza
- blastomikoza
- kokidiomikoza
- parakokidiomikoza

- infections with Bartonella spp.
- treponemal infections (yaws, pinta, bejel)
- leptospirosis
- gonorrhea
- syphilis
- chlamydial infections (lymphogranuloma venereum, trachoma)
- chancroid
- rat bite fever
- granuloma inguinale (donovanosis)
- relapsing fever

Fungal infections:

- histoplasmosis
- blastomycosis
- coccidiomycosis
- paracoccidiomycosis

Temeljni literatura in viri / Reading materials:

- Mandel GL, Bennett JE, Dolin R. Principles and practice of infectious diseases. Churchill Livingstone, Philadelphia, 2005.
- Warrell DA, Cox TM, Firth JD. Oxford text book of medicine: Infection including tropical infections, Oxford C&C Offset Printing, 2012.

- Marolt-Gomišček M, Radšel-Medvešček A. Infekcijske bolezni, Tangram, Ljubljana 2005

Cilji in kompetence:

Študentje se bodo seznanili z etiologijo, epidemiologijo, klinično sliko, patogenezo, diagnostiko, diferencialno diagnostiko, zdravljenjem in preprečevanjem najpogostejših okužb na potovanjih in v tropskih krajih.

Objectives and competences:

The aim of this course is to get knowledge about etiology, epidemiology, clinical picture, pathogenesis, diagnostics, differential diagnostics, treatment and prevention of most common infectious diseases in tropics.

Predvideni študijski rezultati:

Znanje in razumevanje:

- prepoznavanje kliničnih slik najpogostejših okužb iz tropskih krajev
- racionalni pristop k njihovi diagnostiki in zdravljenju
- diferencialno diagnostična presoja
- seznanjenost z možnimi načini preprečevanja različnih okužb iz tropskih krajev.

Prenesljive/ključne spremnosti in drugi atributi:

Diferencialno-diagnostično prepoznavanje tropskih bolezni in takojšnje ukrepanje.

Intended learning outcomes:

Knowledge and Understanding:

- ability to recognize major infectious disease patterns and syndromes in returned traveler
- rational diagnostic approach to most common infectious diseases in tropics and their treatment
- approach to differential diagnosis of major disease patterns
- possible prevention measures for most common infectious diseases in tropics

Transferable/Key Skills and other attributes:

Differential-diagnostic recognition of tropical diseases and taking prompt action

Metode poučevanja in učenja:

1. predavanja
2. seminarji

Learning and teaching methods:

1. lectures
2. seminars

Delež (v %) /

Share (in %)

Assessment methods:**Načini ocenjevanja:**

Način (pisni izpit, ustno izpraševanje, naloge, projekt)

1. seminar
2. pisni izpit

40
60

ŠTUDIJSKE OBVEZNOSTI ŠTUDENTOV:
predavanja, seminarji.

POGOJI ZA PRISTOP K POSAMEZNEMU
PREVERJANJU ZNANJA: opravljeni seminarji in
prisotnost na predavanjih.

Type (examination, oral, coursework, project):

1. seminar
2. written exam

ACADEMIC OBLIGATIONS OF STUDENTS:
lectures, coursework.

REQUIREMENTS FOR ACCESS TO INDIVIDUAL
KNOWLEDGE CHECKING: completed coursework
assignments and attendance at lectures.
