

# Summer courses 2019

This summer we offer several summer courses taught in English primarily in July and August. Of special interest to your students, we would like to mention the following four courses:

- [Internal Medicine](#)
- [Arctic Health](#)
- [International Health](#)
- [Rethinking Healthcare - Innovation as a powerful driver](#)

You will be able to see all our 2019 international summer courses at <http://healthsciences.ku.dk/education/summercourses/>

## How can your students participate in SUND summer courses?

Your students can participate in the courses without paying tuition fees,

- If it is part of their planned Erasmus exchange in Copenhagen, autumn 2019
- If you nominate your students through Nordplus express, wherever possible

Interested students are of course also welcome to attend the courses as fee paying students.

## Application Process

The application deadline for summer courses is **1 April 2019**; the application form can be found at each summer course webpage. Apart from this form, the students will also have to fill in the usual exchange application form upon your nomination in the UCPH on-line system.

For us to assess and accept applications already by the 1 April deadline, the students are requested to upload confirmation from the Erasmus Coordinator showing that the participation in the summer course is accepted by you.

We hope you will find the summer courses of interest to your students – and assist us in spreading the word.

Should you have questions, please contact us at [SummerCourses@sund.ku.dk](mailto:SummerCourses@sund.ku.dk).
